

The Maritime Perspectives Series continues with the Future of Shipping: Decarbonisation Webinar, jointly organised by the International Maritime Organization (IMO) and the Maritime and Port Authority of Singapore (MPA).

Despite these challenging times, decarbonisation remains a top priority for the maritime sector. What have we achieved and what more needs to be done? How do we tap synergies and create new opportunities for collaboration? How can regulators provide the enabling environment necessary to progress decarbonisation R&D and technologies? Experts and industry leaders will share their ideas and views on this multifaceted issue that will impact the maritime sector and beyond.

PROGRAMME	
5.00 PM	Welcome
5.05 PM	Opening Remarks by Mr Ong Ye Kung, Minister for Transport, Singapore
5.10 PM	Opening Remarks by Mr Kitack Lim, Secretary-General, International Maritime Organization
5.20 PM	First Presentation (Mr Jose Matheickal, Chief, Department of Partnerships and Projects, IMO) The IMO will deliver a presentation on its decarbonisation-related initiatives, and introduce "NextGEN", a concept for a collaborative global ecosystem of maritime decarbonisation initiatives.
5.30 PM	1st Panel Discussion/Q&As: "What more is needed to enable the successful transition by international shipping to future green energy sources and meet IMO's 2050 target?" moderated by Senior Advisor Mr Yap Ong Heng, Ministry of Transport, Singapore Panellists: <ul style="list-style-type: none"> Mr Andreas Sohlen-Pao, Chairman BW Group and Co-Chair of the International Advisory Panel on Maritime Decarbonisation; Mr Wong Weng Sun, President and CEO of Sembcorp Marine Ltd and Co-chair of the International Advisory Panel on Maritime Decarbonisation; Ms Quah Ley Hoon, Chief Executive, Maritime and Port Authority of Singapore.
5.50 PM	Second Presentation (Ms Johannah Christensen, Managing Director and Head of Projects and Programmes, Global Maritime Forum) The Getting to Zero Coalition (GTZ), an industry-led coalition comprising of 150 leaders across the maritime industry, financial institutions and other stakeholders, will share their efforts to bring commercially-viable deep sea zero emissions vessels into operation by 2030.
6.00 PM	Third Presentation (Dr Peter Nuttal, Scientific and Technical Advisor Micronesian Centre for Sustainable Transport, University of the South Pacific (USP), and Mr Jens Krüger, Acting Deputy Director, Ocean and Maritime Program, Pacific Community) Two institutions from the Pacific Islands will share their respective efforts at the Micronesian Centre for Sustainable Transport and Maritime Technology Cooperation Centre Pacific to decarbonise shipping in the Pacific.
6.15 PM	Fourth Presentation (Mr Andrew Losos, Sr. Sustainable Transport Specialist Maritime and Ports Sector Transport Global Practice, The World Bank) The World Bank will present its decarbonisation efforts, with a focus on the opportunities that a shift to low- and zero-carbon fuels represents for developing countries.
6.25 PM	2nd Panel Discussion/Q&As - All Speakers
7.00PM	Close

FEATURED SPEAKERS

Mr Ong Ye Kung
Minister for Transport, Singapore

Mr Kitack Lim
Secretary-General, International Maritime Organization

Ms Johannah Christensen
Managing Director and Head of Projects and Programmes, Global Maritime Forum

Dr Peter Nuttal
Scientific and Technical Advisor Micronesian Centre for Sustainable Transport, University of the South Pacific (USP)
