Article

Promotion of Technical Co-operation

The Contracting Parties shall promote, through the Organization and other international bodies, with assistance in co-ordination by the Executive Director of the United Nations Environment Programme, support for those States which request technical assistance for:

- (a) the training of scientific and technical personnel;
- (b) the supply of necessary equipment and facilities for reception, research and monitoring;
- (c) the facilitation of other measures and arrangements to prevent or mitigate pollution of the marine environment by ships;

preferably within the countries concerned, so furthering the aims and purposes of this Convention.
