

IMO WORLD MARITIME DAY THEME 2026-2027

FROM POLICY TO PRACTICE

POWERING MARITIME EXCELLENCE

FACILITATING MARITIME TRADE & TRAFFIC

IMO regulations streamline sea trade and traffic, **simplifying procedures to clear the arrival, stay and departure of ships at ports.**

IMO POLICY IN ACTION

Supporting digitalization for streamlined maritime trade.

Caribbean countries attend IMO workshops to establish 'Maritime Single Windows' - centralized digital platforms for information exchange (e.g. on health, security, immigration, imports/exports) between ships and government agencies at port calls.

IMO's Facilitation Convention requires Member States to implement single window systems to boost the efficiency of shipping.
