

IMO-UNEP-Norway

INNOVATION FORUM

2024

24-25 October 2024 - IMO HQ hybrid event (live in person & online)

Introducing the Institute of Marine Engineering, Science & Technology (IMarEST)

Founded 1889: Registered charity, learned society and international professional body for marine professionals

12,000+ Members: Marine engineers, scientists and technologists in one international multi-disciplinary community

- Facilitates exchange of ideas

120+ countries: Upholds the safety, standards, and knowledge of marine professionals worldwide while promoting the safe and sustainable development of the marine environment, industry, and professions

Active involvement: Key voice representing marine professionals to regulatory bodies

- Consultative status with IMO
- Active contributor to environmental and safety topics including IMO's GHG reduction targets

Decarbonisation is #1 challenge for the maritime sector as identified by our members

We strive to support a safe and just transition for seafarers

OUR VISION

The IMarEST is the trusted voice across the marine sector and is the global community for all marine professionals distinguished as leaders in shaping a sustainable world.
