1 March 2013

REPORTS ON ACTS OF PIRACY AND ARMED ROBBERY AGAINST SHIPS

Annual Report – 2013

1 In pursuance of the Maritime Safety Committee's instruction to the Secretariat to issue monthly reports of all incidents of piracy¹ and armed robbery against ships² reported to the Organization and, in addition, to issue composite reports accompanied by an analysis, on a regional basis, of the situation and an indication whether the frequency of incidents is increasing or decreasing and advising of any new feature or pattern of significance, the annex hereto provides, in the tabulated format agreed by the Committee, the summary of reports on incidents received between 01 January and 31 December 2013 including a distinction between acts of piracy and acts of armed robbery against ships and attempted attacks (annex 2). Further, and as instructed by the Committee (MSC 75/24, paragraph 18.41), the Secretariat has, since July 2002, started classifying separately any reported incidents of piracy and armed robbery **at sea** (international or territorial waters) vis-à-vis acts of armed robbery allegedly committed in port areas, as well as attempted acts of armed robbery.

¹ "Piracy" is defined in the 1982 United Nations Convention on the Law of the Sea (UNCLOS) (article 101) as follows:

"Piracy consists of any of the following acts:

- (a) any illegal acts of violence or detention, or any act of depredation, committed for private ends by the crew or the passengers of a private ship or a private aircraft, and directed:
 - (i) on the high seas, against another ship or aircraft, or against persons or property on board such ship or aircraft;
 - (ii) against a ship, aircraft, persons or property in a place outside the jurisdiction of any State;
- (b) any act of voluntary participation in the operation of a ship or of an aircraft with knowledge of facts making it a pirate ship or aircraft;
- (c) any act inciting or of intentionally facilitating an act described in subparagraph (a) or (b)."

² "Armed robbery" against ships is defined in the *Code of Practice for the Investigation of the Crimes of Piracy and Armed Robbery Against Ships* (resolution A.1025(26), annex, paragraph 2.2), as follows:

"Armed robbery against ships means any of the following acts:

- (a) any illegal act of violence or detention or any act of depredation, or threat thereof, other than an act of piracy, committed for private ends and directed against a ship or against persons or property on board such a ship, within a State's internal waters, archipelagic waters and territorial sea;
- (b) any act of inciting or of intentionally facilitating an act described above".

2 At its sixty-sixth session in June 1996, the Committee further instructed the Secretariat to prepare, after March of every year, an annual summary of all acts of piracy and armed robbery against ships, which had occurred during the previous year and had been reported to the Organization, based on their actual date and time of occurrence.

3 Pursuant to this request, the annexes hereto provide information on reports of piracy and armed robbery against ships received by the Secretariat since 1984, when relevant statistics started being compiled and, in particular, those which occurred in the course of 2013 as well as a regional analysis thereof.

4 At its eighty-fifth session in December 2008, the Committee also instructed the Secretariat, *inter alia*, to include in future issues of MSC.4 circulars additional and separate annexes listing incidents occurring in waters off the coast of Somalia.

5 The number of acts of piracy and armed robbery against ships, which were reported to the Organization to have occurred or to have been attempted in 2013, was 298, a decrease of 43 (12.6%) over the figure for 2012.

6 From the information referred to above, it emerges that the areas most affected in 2013 were the South China Sea, West Africa and the Western Indian Ocean (Arabian Sea, East Africa, the Persian Gulf and the wider Indian Ocean), followed by South America and the Caribbean³ and the Mediterranean Sea. Following the trend in 2012, the number of incidents caused by Somalia-based pirates has further fallen to 20, significantly lower than the 78 incidents reported in 2007 when Somalia-based piracy started to develop. No merchant ship was reported hijacked in the Somalia-based High Risk Area in 2013. However, Somali pirates still hold approximately 64 personnel captive ashore – most of them from ships which had been released.

7 A significantly high number of attacks again occurred in the South China Sea where 142 reports were made to the Organization compared with the 90 incidents reported for 2012. Incidents that have occurred in the waters of the Philippines and Indonesia are categorized as South China Sea incidents and not as Indian Ocean incidents in order to distinguish them from pirate-activities westerly of the Indian Sub-continent. In 116 of the 142 reported incidents the pirates/armed robbers have either deployed actual force against the crew or have threatened them with violence.

8 The number of reported acts of piracy and armed robbery in the Gulf of Guinea (West Africa) decreased to 54, compared with 64 incidents reported in 2012 and 61 incidents reported for 2011. However, 9 ships have been reported hijacked (and subsequently released) to the Organization.

9 The number of reported acts of piracy and armed robbery in South America and the Caribbean has fallen to 17 incidents, compared with 21 reported for 2012. Eight incidents were reported for the Mediterranean Sea with most of them taking place at the ports near the entrance to the Suez Canal. One incident occurred in the North Atlantic Ocean.

10 More than 60% of the attacks worldwide were reported to have occurred or to have been attempted in port areas, largely due to increased armed robbery activity in the waters off the Philippines and Indonesia. In many of the reports received, the crews were violently attacked by groups of one to four people carrying knives or guns.

³ As reported to MSC 76 (MSC 76/23, paragraph 16.2), the geographically large South American and Caribbean region has been sub-divided into three regions: South America (Atlantic), South America (Pacific) and the Caribbean. This change is reflected in all relevant reports issued as of 1 January 2003.

11 From the same information, it emerges that, during the period under review at least one crew member was killed, as compared to 2012, which saw five casualties which all occurred in the West Africa region. About 137 crew members were reportedly taken hostage/kidnapped, as compared to 313 in 2012 while 11 crew were assaulted. Worldwide, 11 ships were reportedly hijacked, as compared to 26 in 2012.

12 The total number of incidents of piracy and armed robbery against ships, reported to have occurred or to have been attempted from 1984 to the end of December 2013, has risen to 6,752.

13 With regard to acts of piracy and armed robbery against ships reported to the Organization, information on acts of piracy and armed robbery against ships reported to the Organization to have occurred or to have been attempted during 2013 has been circulated by means of monthly reports (MSC.4/Circ.194, MSC.4/Circ.195, MSC.4/Circ.196, MSC.4/Circ.197, MSC.4/Circ.198, MSC.4/Circ.199, MSC.4/Circ.200, MSC.4/Circ.201, MSC.4/Circ.202, MSC.4/Circ.203, MSC.4/Circ.204 and MSC.4/Circ.205).

14 The annexes to this document provide a breakdown of the information referred to above as follows:

- .1 annex 1 provides a list of all acts reported to have occurred or to have been attempted in 2013 in chronological order of occurrence;
- .2 annex 2 provides a regional analysis of acts reported to have been allegedly committed or attempted during 2013;
- .3 annex 3 provides a graphical presentation by area, on an annual basis, of the acts reported to have been allegedly committed or attempted during 2013;
- .4 annex 4 provides a graphical presentation by area, on an annual basis, of reports received between 1984 and 31 December 2013; and
- .5 annex 5 provides a list of all acts reported to have occurred or to have been attempted in waters off the coast of Somalia in 2013 in chronological order of occurrence.
