MSC.4/Circ.264  
27 April 2020

## REPORTS ON ACTS OF PIRACY AND ARMED ROBBERY AGAINST SHIPS

### Annual Report – 2019

#### Background

1 In pursuance of the Maritime Safety Committee's instruction to the Secretariat to issue composite reports of all incidents of piracy<sup>1</sup> and armed robbery against ships<sup>2</sup> reported to the Organization accompanied by an analysis, on a regional basis, of the situation and an indication on whether the frequency of incidents is increasing or decreasing and advising on any new feature or pattern of significance, the annex hereto provides, in the tabulated format agreed by the Committee, the summary of reports on incidents received between 1 January and 31 December 2019 including a distinction between acts of piracy and acts of armed robbery against ships and attempted attacks (annex 2). Further, and as instructed by the Committee (MSC 75/24, paragraph 18.41), the Secretariat has, since July 2002, been classifying separately any reported incidents of piracy and armed robbery **at sea** (international or territorial waters) vis-à-vis acts of armed robbery allegedly **committed in port areas**, as well as **attempted** acts of armed robbery.

---

<sup>1</sup> "Piracy" is defined in the 1982 United Nations Convention on the Law of the Sea (UNCLOS) (article 101) as follows:

"Piracy consists of any of the following acts:

- (a) any illegal acts of violence or detention, or any act of depredation, committed for private ends by the crew or the passengers of a private ship or a private aircraft, and directed:
  - (i) on the high seas, against another ship or aircraft, or against persons or property on board such ship or aircraft;
  - (ii) against a ship, aircraft, persons or property in a place outside the jurisdiction of any State;
- (b) any act of voluntary participation in the operation of a ship or of an aircraft with knowledge of facts making it a pirate ship or aircraft;
- (c) any act inciting or of intentionally facilitating an act described in sub-paragraph (a) or (b)."

<sup>2</sup> "Armed robbery" against ships is defined in the *Code of Practice for the Investigation of the Crimes of Piracy and Armed Robbery Against Ships* (resolution A.1025(26), annex, paragraph 2.2), as follows:

"Armed robbery against ships means any of the following acts:

- (a) any illegal act of violence or detention or any act of depredation, or threat thereof, other than an act of piracy, committed for private ends and directed against a ship or against persons or property on board such a ship, within a State's internal waters, archipelagic waters and territorial sea;
- (b) any act of inciting or of intentionally facilitating an act described above"

2 At its sixty-sixth session in June 1996, the Committee further instructed the Secretariat to prepare, after March of every year, an annual summary of all acts of piracy and armed robbery against ships, which had occurred during the previous year and had been reported to the Organization, based on their actual date and time of occurrence.

3 Pursuant to this request, the annexes hereto provide information on reports of piracy and armed robbery against ships received by the Secretariat since 1984, when relevant statistics started being compiled and, in particular, those which occurred in the course of 2019 as well as a regional analysis thereof.

4 At its eighty-fifth session in December 2008, the Committee also instructed the Secretariat, *inter alia*, to include in future issues of MSC.4 circulars additional and separate annexes listing incidents occurring in waters off the coast of Somalia (see annex 5).

### **Monthly reports**

5 At its ninety-ninth session in May 2018, the Committee agreed to discontinue the monthly circulars containing reports on incidents of piracy and armed robbery against ships, while maintaining the annual reports as part of the series of MSC.4 circulars. However, the Secretariat continues to make monthly reports available at IMO's public website. Further, reports of actual and attempted attacks by pirates and armed robbers against ships are continuously promulgated via the Piracy and Armed Robbery module of the Global Integrated Shipping Information System (GISIS) as soon as they are received by the Secretariat from Member States and reporting organizations and entities. Users of the module can create and download customized reports, e.g. by geographical area or time period (guidance is available within the module).

### **Global and regional trends in 2019**

6 The number of acts of piracy and armed robbery against ships, which were reported to the Organization to have occurred or been attempted, were 193 incidents worldwide in 2019. In 2018, 223 incidents were reported. We are thus seeing a decrease of about 14% at the global level, and the lowest number of reported incidents at the global level since 1996.

7 From the data referred to above, it emerges that the areas most affected by acts of piracy and armed robbery against ships in 2019 were West Africa (67 incidents), the Straits of Malacca and Singapore (45 incidents) and the South China Sea (34 incidents), followed by the South America Pacific region (14 incidents), the South America Caribbean<sup>3</sup> region (12 incidents), and the Indian Ocean (10 incidents).

8 The number of incidents that took place in the Gulf of Guinea (West Africa) decreased in 2019 by 14 incidents, down from 81 incidents in 2018. However, the number of incidents involving kidnapped and missing crew in this region increased from 11 in 2018 to 20 incidents in 2019, in which 151 crew in total were reported kidnapped/missing (see annex 2). This is the highest number so far on record. The data reveals an almost equal number of incidents occurring in international waters, territorial waters and in the port areas in the region (see annex 3).

9 The number of incidents of piracy and armed robbery against ships in the Straits of Malacca and Singapore increased to 45 from 8 incidents reported in 2018. About 70% of the incidents reported in 2019 were targeting a steaming ship. This is a significant percentage compared to the global average of about 34%.

---

<sup>3</sup> As reported to MSC 76 (MSC 76/23, paragraph 16.2), the geographically large South American and Caribbean region has been sub-divided into three regions: South America (Atlantic), South America (Pacific) and the Caribbean. This change is reflected in all relevant reports issued as of 1 January 2003.

10 Although still the third most affected region, the number of incidents of piracy and armed robbery against ships that took place in the South China Sea has decreased by almost 50% from 2018, with 34 incidents reported to the Organization in 2019. A decreasing trend of incidents in this region is identifiable since 2013 when 142 incidents were reported. This data includes incidents that have occurred in the waters off the Philippines and Indonesia and incidents in the area of the Sulu – Celebes Sea (waters between Philippines and Malaysia).

11 The number of incidents of piracy and armed robbery against ships in the Latin American regions and the Caribbean region taken overall is on par with last year, with 29 reported incidents in 2019 compared with 30 in 2018. However, this total includes incidents in the Caribbean region, which are down by 5 incidents from last year to 12 reports in 2019, whereas incidents in the Latin America Pacific region are up by 6 incidents from last year to 14. In 2019, four crew members were reportedly kidnapped in three individual incidents in the Latin American and Caribbean regions.

12 The data reveals that the total number of crew reported as taken hostage/kidnapped or missing in 2019 is the highest in the last five years at 173 crew members, over 87% of whom were kidnapped in West Africa, followed by the South China Sea and Latin American regions.

13 The total number of incidents of piracy and armed robbery against ships reported to the Organization as having occurred or having been attempted from 1984 to the end of December 2019 has risen to 8,186.

14 Information on each report of actual or attempted acts of piracy and armed robbery against ships reported to the Organization is available in the piracy and armed robbery module in GISIS, as explained in paragraph 5.

15 The annexes to this document provide a breakdown of the information referred to above as follows:

- .1 annex 1 provides a list of all acts reported to have occurred or to have been attempted in 2019 in chronological order of occurrence per each geographical area;
- .2 annex 2 provides a regional analysis of acts reported to have been allegedly committed or attempted during 2019;
- .3 annex 3 provides a graphical presentation by area, on an annual basis, of the acts reported to have been allegedly committed or attempted during 2019;
- .4 annex 4 provides a graphical presentation by area, on an annual basis, of reports received between 1984 and 31 December 2019; and
- .5 annex 5 provides a list of all acts reported to have occurred or to have been attempted in waters off the coast of Somalia in 2019 in chronological order of occurrence.
