IMDG Code on the Web for Intranet Users

What is it?

IMO Publishing is now able to offer corporate customers multi-user access to its authentic IMDG Code on the Web service via their Intranet through a Single Sign-On (SSO) solution.

Why do I need it?

Access to IMO Publishing's IMDG Code on the Web service can be a game-changer when customers need flexible and up-to-date access to critical dangerous goods information in a hurry!

With an SSO solution from your own intranet, corporate customers can now provide access to multiple concurrent users to the IMDG Code on the Web without the inconvenience and risk of sharing sensitive login credentials.

Who is it for?

This service is available to customers who wish to purchase multi-user, concurrent access to the IMDG Code on the Web via their corporate Intranet.

How much does it cost?

This service is designed for corporate users who require continuous, multi-user access to the IMDG Code on the Web and it is, by its very nature, a bespoke service. Please contact sales@imo.org who will be happy to arrange a meeting to discuss your requirements.

Where can I buy it?

This new service is available directly from IMO Publishing. Please contact sales@imo.org for **further** information.
