IMO - Vega ^{THE} 26

D A T A B A S E VERSION

IMO-Vega is an essential tool for anyone involved in shipping: ship-owners and operators, shipbuilders, classification societies, casualty investigators, governments, insurers and underwriters, port authorities, surveyors and many others.

The IMO-Vega database, developed by the International Maritime Organization (IMO) and DNV AS, puts all the necessary information on safety and pollution prevention requirements applicable to ships at your fingertips.

Unlike other, similar, products, IMO-Vega contains historical data – including regulations which have been superseded. Version 26 builds on the success of previous versions, adding further texts and enhancing the power of the database.

The database also contains safety-related documents issued by IMO such as circulars, resolutions, etc.

The application allows for search by applicable regulations according to the following criteria:

- ship type and date of build
- ship-specific conventions and codes
- certificate
- cargo type
- length and number of passengers
- gross tonnage and deadweight
- topics and trade

The database includes the latest texts (up to and including April 2022) of IMO requirements such as the following, but not limited to:

1974 SOLAS Convention, including 1978 and 1988 Protocols and all amendments	International Code of Safety for High-Speed Craft (HSC Code) 1994 and 2000
1966 Load Lines Convention, including 1988 Protocol and all amendments	International Maritime Solid Bulk Cargoes (IMSBC) Code, and previous code, BC Code
MARPOL, including all amendments	International Grain Code
1978 and 1995 STCW Convention and Code, with amendments	Code of Safe Practice for Cargo Stowage and Securing
1972 Collision Regulations	Code of Safe Practice for Ships Carrying Timber Deck Cargoes
1969 Tonnage Convention	IMDG Code
2004 Ballast Water Management Convention	IAMSAR Manual, volumes I, III and III
International Bulk Chemical (IBC) Code	International Code of Signals
International Gas Carrier (IGC) Code	International Life-Saving Appliance (LSA) Code
International Safety Management (ISM) Code	MLC Maritime Labour Conventions
International Ship and Port Facility Security (ISPS) Code	United Nations Convention on the Law of the Sea (UNCLOS)

IMO-Vega is available as an online annual subscription

(IMO product code: SVEGA)
