THE *new* IMO BOOKSHELF

Benefits and Features of the *new* IMO Bookshelf:

No installation required

The new IMO Bookshelf is a browser-based hybrid software, meaning that it runs in web browsers, yet behaves like desktop software, so there is no need to download or install anything.

Works on low connection speeds

Ships with download speeds as low as 0.3 Mbps can access the new IMO Bookshelf while at sea.

Access on multiple PCs/devices

The new IMO Bookshelf is not limited to one device and can be accessed on any computer or tablet that can access the internet. Multiple licences are required for multiple concurrent users.

Use online and offline

The new IMO Bookshelf provides flexible access. Our digital titles can be viewed while connected to the internet and are downloaded to the browser's cache for access offline, making it suitable for use even when you do not have a reliable internet connection.

Cyber secure

Designed with new requirements on cyber security in mind.

The screenshot shows the 'Ballast Water Management Convention and BWMS Code' document open in the IMO Bookshelf. The left sidebar is the same as in the previous screenshot. The main area displays the document content, including a table of contents and the introduction text. The document is titled 'Ballast Water Management Convention and BWMS Code' and is dated 'Supplement - December 2019'. The introduction text discusses the harmful effects of unwanted species in ships' ballast water and the IMO's response through the MEPC and the adoption of the Convention and BWMS Code. The document is displayed in a viewer with a zoom level of 91% and navigation controls.
