

All IMO Publishing's bestsellers are now sold as e-reader products in EBK format. The platform for the new products is **The IMO Bookshelf**, which is aimed at the carriage of publications on board ships.*

EBK-format e-reader products replace PDF-format e-books and, in some instances, CDs. They are exact copies of our printed books, as were the PDF-format e-books, but they can only be viewed using the free e-reader software.

The IMO Bookshelf is the first product to offer the IMDG Code, SOLAS, Ships' Routing and MARPOL in e-reader format (NB: the IMDG Code for Windows, the IMO-Vega Database and SOLAS on CD will still be sold). Titles not included in **The IMO Bookshelf**, including Model Courses and most non-English titles, will continue to be sold in PDF format as e-books.

To use an e-reader product, the customer must first obtain the e-reader software, which will be licensed to a single computer. The software is available in two ways:

- By **download** from our website (e-reader software without any of the titles added). Purchased digital titles must be added to the e-reader before they can be viewed. Full instructions are available on the download page.
- On CD, from **The IMO Bookshelf CD**, which is aimed at shipboard access and contains the e-reader software and all our main digital titles, ready for unlocking.

Please see the next page for information on how to purchase and add the titles available on **The IMO Bookshelf**.

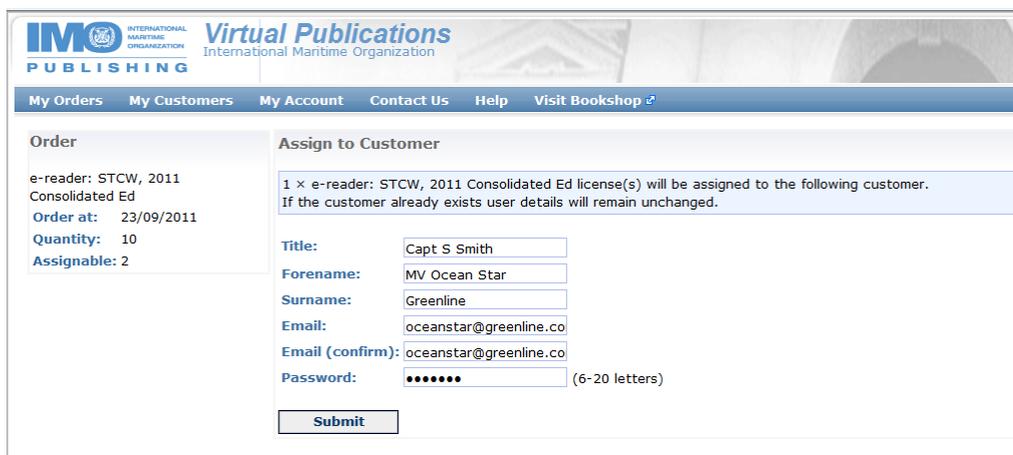

* See Circular MSC-MEPC.2/Circ.2, June 2006.

Purchasing EBK e-reader files

The EBK e-reader is free software. Each digital title must be bought separately. The product code for an e-reader digital title starts with a K – for example, KC938E is the new STCW Convention. You can purchase these products as you would normally, through IMO's Online Bookshop. Once you have paid, click on the Virtual Publications link on the left-hand side and click Submit.

 To access your eBook or online Subscription, please click [here](#).

Once you have entered the Virtual Publications site, click on the product you have just purchased and choose the number of licences you want to assign, followed by your customer's details or ship.

The screenshot shows the Virtual Publications website interface. The header includes the IMO logo and the text 'Virtual Publications International Maritime Organization'. A navigation bar contains links for 'My Orders', 'My Customers', 'My Account', 'Contact Us', 'Help', and 'Visit Bookshop'. The main content area is divided into two sections: 'Order' and 'Assign to Customer'. The 'Order' section displays details for an e-reader: 'e-reader: STCW, 2011 Consolidated Ed', 'Order at: 23/09/2011', 'Quantity: 10', and 'Assignable: 2'. The 'Assign to Customer' section contains a message: '1 x e-reader: STCW, 2011 Consolidated Ed license(s) will be assigned to the following customer. If the customer already exists user details will remain unchanged.' Below this message is a form with the following fields: 'Title' (Capt S Smith), 'Forename' (MV Ocean Star), 'Surname' (Greenline), 'Email' (oceanstar@greenline.co), 'Email (confirm)' (oceanstar@greenline.co), and 'Password' (represented by six dots, with a note '(6-20 letters)'). A 'Submit' button is located at the bottom of the form.

When you click Submit, this will generate a Virtual Publications account for your customer and they will receive a notification email saying that their product is available. Please note that you will need to send them their password if you chose it.

You now have successfully assigned the title(s) to your customer. Please see the next page to view their process.

What your customer sees

Your customer now logs into their account at <http://vp.imo.org>. They will see a link to download the **IMO Bookshelf**, links to instructions, their unlocking code and the actual product file.

About IMO Publishing e-books

IMO Publishing e-books are available in two different formats:

- E-reader files should be accessed via the IMO Bookshelf via CD or free download. You will need your licence code to unlock the e-reader files: **READ-1813-GPQM-MCOR-CRN4**. Please note that this is a customer-specific code which links the files to your computer. For help downloading and accessing your product click [here](#) if you are downloading and [here](#) if you have the CD.
- E-books are pdf files which can be opened with [Adobe Reader](#).

e-reader: STCW, 2011 Consolidated Ed File size: 8.84MB (EBK). 1 license(s)

Purchased from	Purchased on	Valid from	Valid until	Quantity
Distributor: I M O Publishing	28/09/2011	28/09/2011	N/A	1

Step 1

They need to either install the CD or download the e-reader software.

Step 2

IMO Bookshelf CD: they use the search facility to find their purchased title and use the unlocking code to gain access.

Download: they must click on the blue product hyperlink within the site,

e-reader: STCW, 2011 Consolidated Ed File size: 8.84MB (EBK). 1 license(s)

then save the EBK file to their desktop and use the Import E-Book button to add the digital title. Once this is done they can use the unlocking code to gain access.
